

FE-MA-TECH PUR CC MELTER

Two-colour system

FE-MA-TECH. **PUR MELTING DEVICE** For melting 2 different colours at the same time

Technical data:

Weight	90 kg
Type of pump	2 gear pumps
Rated speed of pump	93 rpm
Type of glue to be processed	2 kg PUR bag in aluminium foil
Basic tank size (reservoir)	2x, ca. 1 l
Melting capacity	up to 2 kg/h per colour
Temperature sensors	PT100
Control accuracy	+/- 1°C
Heaters (device)	1 heating zone (reservoir + heating plate) for each colour
Heaters (external)	4 heating zones (2 heating hoses + 2 application heads)

all separately adjustable

- ➔ Optionally with equipment stands on castors to increase flexibility and mobility
- ➔ Specially designed to hold 2 glue colours, allows quick colour changes without much effort
- ➔ We manufacture all systems in your colours on request and provide them with your company logo

Dimensions:

Length: 650 mm
Width: 430 mm
Height: 1100 mm

Electrical data:

Operating voltage	3L/N/PE, 230/400V
Control voltage	24V CC
Permissible voltage divergence	+/- 10%
Pre-fuse, max.	3x16A
Frequency range	50/60 Hz
Connected load (system)	4,9 kW
Connected load (system + external)	> 4.9 kW (depending on the hose length)
